The present fight between the big leagues is the best thing that can happen for the ballplayers, as everyone knows, and if McGraw had his way there would be but one leading baseball association in the country, and salaries would naturally again be cut to the lowest possible figure.

So far as "doing business" with any members of the Washington team, it can be safely asserted that McGraw's efforts it would go a long way toward and his statement made in Chicago was probably only a piece of buncombe to help his fame along.
